**MAY 2, 2016** Hebron City Council met in regular session, Monday, May 2, 2016, at 6:30 P.M., at the City Hall. Mayor Shane Day presided and the proceedings were recorded by City Clerk Marcy Welch. Upon roll call, the following Councilmembers were present: Larry Fangmeier, Douglas Huber, Jay Bauer, Kurk Wiedel, and Tim Pickering. Absent: Robert Dodes. Also present: City Administrator Chris Fangmeier.

Notice of this meeting was given in advance by Posting. Notice of this meeting was simultaneously sent to the Mayor and Council and a copy of their acknowledgement of receipt of notice is attached to these minutes. Availability of the agenda was communicated in the advance notice and in the notice to the Mayor and Council of this meeting. All proceedings hereafter shown were taken while the convened meeting was open to the attendance of the public.

OPEN ANNOUNCEMENT -MEETINGS LAW

Mayor Shane Day informed the public of the location of the posted information concerning the open meetings law.

GENERAL DISCUSSION

Tim Hartley was present and reported on his rentals. He reported to the council that in the past if a renter showed up with cash, he legally had to rent to them. However, with the new rental contract this will help from renting to certain people. He reported that 724 Union is not a bad house, just had people in it that trashed it. He rented to a guy who was going to patch the holes on the inside and never did. That person is now out. Tim reported that 310 Jefferson needs mowed. He reported that he found out that he can go in and mow if the tenants don't, so he went ahead and mowed the front lawns of 1223 & 1225 Lincoln and Tim reported that hopefully the tenant will get the hint and mow the back. Tim reported that this contract states that the tenant has to list all people living in the house with them, and if they move someone in for more than 7 days. they are to let the landlord know and

they will deal with that then.

Councilmember Wiedel stated that he and Tim drove around Sunday and he told Tim an old saying his grandfather had. "If you live out of town your property can look how you want, but in town you have to contend with neighbors. Tim passed around the rental contract that he has his tenants sign. Tim also reported that he knows birds are going into the house where the insulation is blown in. He has gotten some new plugs to put in those holes. Windows are broke, which Tim states he will fix. Councilmember Wiedel reported that the house has mold. Tim reported that he doesn't think so, the house stinks because of all the dogs that they had in the house, which ruined the house. Councilmember Wiedel reported that Tim is willing to sell this house to us and the house at 310 Jefferson and maybe we should leave this till next month and give City Administrator Chis Fangmeier a chance to sit down and negotiate with Tim on a price for both houses. will go around the houses and make a list of what needs to be done to keep the houses in good standing with the city. Chris will also sit down with Tim and go over things. Tim reported that he was trying to sell the house on 115 South 7th Street to Dick Walsh, and if he does, we will need to talk to them about the sign that is on the property for the parts, as Tim stated he allowed us to have it there as long as he owned the house.

WALKABILITY DISCUSSION City Administrator Chris Fangmeier met with Phil Prater about the walking trail. This would be built on City property. The committee got a building permit to get started with this. Chris reported that the Walkability Committee would like to have help in-kind from the City

with using the City's equipment. Councilmember Wiedel reported that the committee is planning a fundraiser in June, would like money from the City Sales Tax Fund if possible. This project will be approximately \$12,000.00. They are going to try and get some money from the Korff Foundation, and if the City would donate \$2,000.00 and okay the City to help with their equipment and maybe help with man power when possible, with no overtime used. Motion was made by Councilmember Wiedel and second by Huber to donate \$2,000.00 and give help with City man power and equipment when available.

Motion carried GENERAL DISCUSSION

740 LINCOLNAVENUE-Amanda Harrington was present and reported that she has moved the car, cleaned up yard and would be happy to put the dog pen in backyard but neighbor doesn't like that. She reported that she doesn't want to cause problems with her neighbor. Was reported that she needs to follow the Dog Ordinance. It should not be on the neighbor's property and that should eliminate the dogs going and pooping and peeing on the neighbor's property around the well. If the neighbor still has a problem with it, then it will at that time become a civil problem and he will have to take that up with her in court.

DOWNTOWN IMPROVE-

Councilmember Wiedel reported that he visited the towns of Ulysses and Wymore and reported that we need to do something with our downtown before we start looking like these other towns. Kurk reported that if we don't start doing something with the front and back of the buildings downtown, we are going to start lose buildings. Kurk suggested that maybe we should give the business owners some incentives to do something with the building like maybe hiring a contractor and we pay the contractor if the building owner pays for the supplies. Randy Hergott reported that 20-25 years ago Jim Kenner headed up IHHS Funds to do this same thing with business owners. Randy reported that the old Region V building has a window broken upstairs and not sure how long it has been broken but no wonder the building is falling apart. We need to contact the owners of the property and start fixing the whole building, not just the first level. City Administrator, Chris Fangmeier, will et a list of the downtown buildings that need work and report back at the next meeting. No formal action

taken at this time.
APPROVAL OF HOUSING PAY APPLICATION #18

Councilmember Wiedel reported that Councilmember Dodes wanted us to go ahead and approve this. Motion was made by Council-member Fangmeier and second by Bauer to approve the Housing Pay Application #18.

Councilmember Wiedel reported that the Financial Committee met with Brian Blobaum, and we are in good position over all on our finances. Brian made some internal recommendations that we will take care of. Councilmember Fangmeier reported on the Profit/Loss statement on utilities and revenue, and that the margin has gone down in past 5 years. Councilmember Fangmeier reported that we have been trying to absorb the increase in utilities ourselves and not passing it on to the customers, however we may have to consider doing an increase to get our margin back up. Councilmember Fangmeier suggested possibly doing a 4% increase. Councilmember Huber asked City Administrator Chris Fangmeier if the new study on electric power will help with the increase. Chris reported that the study will help a little but won't help enough. Motion was made by Councilmember Wiedel and second by Fangmeier to approve the September 30, 2015 Audit Report, and to table the rate increase till next month.

Motion carried APPROVAL OF UPGRADE OF **BACKHOE** 

City Administrator, Chris Fangmeier reported that the backhoe we have now is still functioning but needs to be upgraded. Chris has looked at these at Case International, and if we upgraded to an excavator it would pay for itself. We could do more of our own demolitions, which would save the city money. In the future, if we ever decide to dig our own graves, we could use it for that also. Chris reported that we could lease one for the rate of 1.95% for 5 years. No break in cash price. Chris suggested going with the lease and putting our money in other areas. Funds for this project would be split between the Light, Water, and Sewer. Randy Hergott added that for this to be a true lease, we would have to have a buy out in the end and that would probably be \$1.00. Motion was made by Councilmember Fangmeier and second by Pickering to proceed with the purchase with lease option to trade for the new

**NESSES** 

City Administrator Chris Fangmeier reported that some other town give the following incentives:

1. Defer utility deposits over time

2. Give relief on utility bill such as giving a lower rate on utilities for a year or giving it to them for 6-12 months at cost, so the city isn't losing any funds on it either.

3. Do a 1% increase on all electric utilities so they pay their share.

Councilmember Wiedel suggested maybe helping in other ways as taking down an old existing awning and putting up an awning in front of their business. Councilmember Huber brought up point that if someone gets hurt, we don't want to be responsible for damaging the building. Councilmember Wiedel asked Chris what he found out from Belleville. Chris reported that he checked on them and they don't do the incentives, Republic County does the incentives and they give a 1cent per KWH savings on utilities. They give back their utility deposit after so long, which we do already. They give them a promissory note to pay over so long. Councilmember Wiedel reported that we need to consider doing revitalization or incentives, so when people call we can tell them we have incentives and let them know what they need to do. Councilmember Wiedel also reported that Geneva is very active

with the incentives.
